

# Illinois Faces Water Shortage By Year 2020

(Third in a Series)

In the spring, newspapers throughout the state carry similar reports: "heavy rains have caused flooding in the area as local streams and rivers overflow their banks."

In northern Illinois, the community of DuPue for years, centered its activities around Lake DuPue, stretching five miles long and three-fourths of a mile wide. The purity of the lake's water made the town famous for its ice industry. Docks abounded along the lake front; commercial fishing brought record catches and top prices; and, the lake was a source of pleasure for those enjoying boating, ice skating, hunting and fishing, and swimming. Today, swimming is no longer a major attraction—the lake is too muddy and murky.

Show boats were once a frequent sight on the lake, but now heavy traffic has been cut off due to the "filling in" of silt. One of the highlights of the year at DuPue was the annual outboard regatta held by the American Power Boat Association. But, if the silt keeps flowing into the lake, the Regatta will soon be a thing of the past.

Community leaders are presently struggling hard to whip up a program they can finance to "save the lake."

These occurrences aren't isolated cases—they are reflections of the statewide picture concerning water resources. For too many years, residents have been using, reusing and mistreating nature's provisions. Now, we are reaping the dangers of such neglect.

Virtually every Illinois citizen

can turn a tap—and water comes out for drinking, washing dishes, taking a bath, or watering the lawn. Rarely is a thought given to the supply and purity of the water.

But, water resources officials have been taking long, close looks at the supply for the last few years. They have compiled a lot of information on what is happening to the resources and what the future will bring.

Why is Illinois facing a water shortage? Water resources authorities point out there is no "one reason". The problem is a multi-faceted situation. One simple explanation is illustrated by the volume of water used daily by Illinois residents.

\*About 25 gallons of water are used for a shower.

\*A tub bath requires an average

of 35 gallons.

\*Three gallons of water is used to flush a toilet (about 7 gallons is needed if the facilities are outdated).

\*An average lawn watering session requires about 1,000 gallons.

A look at water usage in a metropolitan area is startling. It takes about 30,000 gallons of water to produce a ton of steel; each person in Chicago uses about 250 gallons per day (and there are six million people in that area); one medium-sized office building can use as much as 15 million gallons of water per year simply in the air-conditioning system.

Taken just as nonchalantly as the use of water is the waste of water. It is estimated that millions and millions of gallons of

the precious resource "leaks" away each day. All that is needed is a leaky faucet, a broken water pipe, a lawn sprinkler left on too long, outdated plumbing, inefficient sewage systems or any number of other examples of neglect.

In Cook County, it is estimated that more than 350 million gallons of water each day are lost through waste. In 1966, it was reported that the city of Joliet was losing almost 50 percent of its domestic water supply due to underground leakage.

Two major factors contributing to vast wastes in water resources are the failure to provide enough water in the right places—and having too much water in the wrong places.

The lack of an adequate number of reservoirs to augment the

flow of streams and to store water handicap the correct distribution of water resources. There aren't enough facilities throughout the state to transfer water to places where it is needed, and there is a desperate lack of technical equipment available to convert water to various purposes. Many homes must depend on unreliable supplies, some areas have unsafe water resources due to bacteria or mineral content.

Illinois now suffers an average of 30 million dollars a year in flood damage. This figure is destined to rise as watersheds deteriorate, open land is covered with houses and paving, and buildings are constructed on marginal lands prone to floodign.

In spite of the vast uses of water in the state each day, to

say that Illinois suffers from a water shortage is to oversimplify the situation. In reality, the state has three times as much water as residents are using. The problem arises in the purity of that available water and its location.

In a never-ending cycle, water falls from the sky as precipitation—rain, snow, dew—and is returned to the atmosphere through evaporation and the life processes of plants. Some water cycles are completed quickly as when the precipitation falls as morning dew, immediately evaporates, then soon falls to earth again. Other water is more permanently associated with the ground in lakes and streams (which, however, lose tremendous quantities of water daily through evaporation). A drop of water that

seeps deep underground into porous rocks may not complete the full cycle for hundreds of years.

Wherever it may be in the cycle, the total supply of water remains the same. Illinois' water resources are as large today as when this area was a wilderness, and authorities estimate we will have the same amount of water 2,000 years from now. Only the demand will increase and the usable water will decrease as pollution "kills" the good water.

The water in Illinois streams and under the ground, plus the dependable flow of the Mississippi and Ohio Rivers and the water taken from Lake Michigan adds up to 63 billion gallons a day—more than three times the water we now use. But, this will only

# Health Department Suit Against Regal Near End

Pictured here is the dumping site being used by the Regal China Co. at Route 173 and Circle Drive. The firm is being sued by the Lake County Health Department for not obtaining a permit to dump in the area. The suit is expected to end Friday in Lake County Circuit Court.

The question of whether the Regal China Co. of Antioch will stop dumping refuse at Rte. 173 and Circle Drive, Channel Lake, will be decided in Lake County Circuit Court Friday.

The representations of attorney Kenneth Shortt will at that time determine whether the Lake County Health Department withdraws a suit it filed April 19, 1967.

The suit was against the firm, its owners Sadie Kravitz and Herman Kravitz, and a ceramic designer, David Nissen.

Since the filing of the suit, however, the firm has been purchased by the James Beam Distilling Co.

Dumping in the 4-acre area, according to the health department has been going on since Oct. 3, 1964. The area is directly across from residential property.

The site has been a drawing card to many who have dumped old cars, refrigerators and garbage, without the permission of the firm, until it has reached a height of some several feet and stretches over a hundred feet or more.

The firm had dumped only earthenware objects and had graded it several times.

Shortt said that the firm is willing to go elsewhere to dump, and in fact has a contract to dump in Antioch, but the contract has not yet been executed.

He said, however, that he expects it to be consummated by Friday.

Since the time of the filing of the suit, however, through legal maneuvering, the case has had at least eight continuations.

Shortt, last week, told Circuit Judge Philip W. Yager that the firm is willing to cover up the area and even put a strand of barbed wire around it to keep out unwanted dumpers, if necessary.

Although a higher maximum is

## Village Approves Ordinance

The Antioch Village Board last week approved an appropriation ordinance calling for expenditures of \$710,650, an increase of \$57,750 over the previous year.

The ordinance, approved for publication, calls for expenditures of \$421,050 for the general corporate fund, a slight increase over the \$416,200 appropriated last year.

The water and sewer fund appropriation jumped from \$238,700 last year to \$289,600 for fiscal 1968-69. The hike is in anticipation of sewer extensions and well work.

The appropriation ordinance is a shopping list for the village and is no indication that this

## Seek Algae Remedy For Chain Area, Fox

A detailed study is underway concerning the possibility of dredging the Chain O' Lakes and the Fox River with an eye to the possibility of cutting algae growth.

The major problem, which has hit our lake area, is being undertaken by the Illinois Division of Waterways.

Area legislators and those who depend on the Chain for their livelihood, have long petitioned the state for some action on the Chain.

Apparently their pleas have not fallen on deaf ears.

The State Sanitary Water Board has also been keeping its

finger on the problem and studies have already been made.

Clarence W. Klassen, technical secretary to the board, has been testing the use of a water reed which would use up the nutrients needed for algae growth.

John Guillou, director of the Illinois Division of Waterways has long been sympathetic to the problems of western Lake County.

He said that about one-third of the nutrients needed for the algae growth comes from the bottom of the lakes and the river.

He said if this could be dredged out, then it would be a step for

## Project Vietnam Lacks List

The Antioch Post Office is getting ready for another mailing of Project Vietnam packages to Antioch servicemen.

But there is one problem. The post office doesn't have the list of the boys that are serving over there.

It was explained that when former acting postmaster Joseph Wolf left the department, he took the list with him and it has not been returned.

Not only did Wolf take the list, but he took all of the packages and awards that the post office received as a result of the

## Ill. State Laws Are Protecting Nature

Anyone who visits Illinois state parks this summer will find the law there too.

The 51 parks in the state park system were created by law, for purposes designated by law and rates are fixed by legislative action, notes the Illinois State Bar Association.

The latest laws affecting the parks, according to the ISBA, were enacted by the 1967 General Assembly which:

1. Set a minimum daily fee of \$1.00 for use of overnight campsite facilities for a tent or trailer (previously there was no minimum fee for such service).

2. Raised the maximum authorized daily fee for a campsite from \$1.50 to \$2.50.

3. Created the 51st park, Sam Parr State Park in Jasper County. (The park is already open to the public but facilities are limited.)

Although a higher maximum is

authorized, the ISBA said charges this season as set by the Department of Conservation will be \$1.00 daily for a primitive campsite for either a tent or trailer and \$1.50 per day for a modern campsite plus 25 cents daily for electrical service.

Forty-one of the parks have camping facilities. There is no entrance charge to any of the parks.

One reason stated in the law for creation of the parks is to preserve historic sites and relics connected with early pioneer or Indian history. Anyone who wishes to go exploring with a pick and shovel must obtain permission of the authorities. Any application to explore or excavate aboriginal remains is subject to review by the Illinois State Museum.

Other laws are designed to protect Mother Nature and park

## 4 Antioch Area Girls In Contest

Deadline for entering the 1968 Lake County Fair Queen Contest is July 13.

Don Bowers, chairman of the Queen Contest Committee, expects around 50 candidates before deadline. To date sixteen girls have already entered the contest.

Antioch area girls who will vie for the crown are: Pam Hagstrom of Rt. 4, Antioch; Marilyn Joy Scottberg, Grub Hill Rd., Lake Villa; Christine Schaeffer, Lindenhurst and Bonnie Davis of Rt. 3, Antioch.

All Lake County girls who are single—and between the ages of 16 and 21 are eligible.

They may enter the contest by filling out an official entry blank and mailing it with a recent photograph to "Queen Contest, P. O. Box 177, Grayslake, Ill. 60030."

The committee will select 15 semi-finalists, seven finalists and the Queen, during the week of July 15-20.

Bowers' committee includes Mrs. Barbara Slighthead of Antioch, Miss Betty Mathiesen of Waukegan, Mrs. Richard Warfield of Waukegan and Jim McConnell of Grayslake.

Judging will be done at 6 p.m. July 16, 18 and 20 in the Lake County Farm Bureau auditorium at the County Fairgrounds.

The Queen will be crowned at 7:45 p.m. on July 24.

Other contestants include: Diane Keeler of Fox Lake; Judy Baczek of Round Lake; Susan Yukna of Waukegan; Charlotte E. Miller of Grayslake; Kathie Heitkotter of Waukegan; Bernadette Drabek of Fox Lake; Kath

## Co. Fair Opening July 23rd

Your Lake County Fair opens the 1968 show with an English Horse Show on July 23, starting at 10 a.m. Tuesday. This is the first show of its kind to be held at your County Fair Grounds.

Mr. and Mrs. Norm Schueber and Mr. and Mrs. Leadley will manage the show. It promises to be of great interest for this big extravaganza this year.

The Lake County Fair People have planned a countywide sequentennial program for the 1968 fair. You are invited to help celebrate the 150 years of statehood for our great state of Illinois.

The entries will close in many departments on July 15th. If you do not have a premium book, write or call the Secretary of the Lake County Fair Association, P. O. Box 27, Grayslake. A booklet will be sent by return mail.

## State Bank Employee Receives Top Rating

Betty Wurster, State Bank of Antioch installment loan department employee, has received the Illinois Clearing House award for academic excellence in a banking course sponsored by the American Institute of Banking.

Mrs. Wurster, who received a certificate and a cash prize, was rated the top student in her class. The rating was based on progress and performance, as well as grades. She took the accounting course in the Waukegan High School evening classes.

### Rescue The Squad

Letters are going out this week in a plea for support of the Lions Club Antioch Rescue Squad Fund.

We earnestly enlist your support for this worthy project.

The Antioch area is blessed because of the fact that it has 100 per cent coverage during the time of any emergency.

The Antioch Rescue Squad is on duty to serve you in your hour of need 24 hours a day, 365 days out of the year.

In recent months, nearby area ambulance services, according to the letter, have been discontinued or subsidized by local government because of extremely high operating costs.

The Rescue Squad service is brought to you with no tax funds involved.

We believe that the residents of the Antioch area are appreciative of the service rendered by the members of the Antioch Rescue Squad.

And there is only one way that this appreciation can be shown in its best light.

That is a donation to the Lions Club fund to keep the three fully equipped vehicles in service.

We realize that every citizen is hit from every side for donations to this and that fund. But we also realize that a needed service could be curtailed or abandoned without the funds to operate it.

So don't wait to support this needed function. Do it now.

### A Forward Step

A group of businessmen from Salem and Paddock Lake, Wisconsin, have formed themselves into a Better Government Committee and maybe it isn't such a bad idea.

It seems that this group is interested in helping sheriff and local police with the problem of vandalism and malicious mischief.

They are offering to assist authorities toward the arrest and conviction of the culprits who are destroying other persons property.

They have even gone so far as to discuss pooling resources to offer rewards for the conviction of these hoodlums.

They have just decided that it is time that everyone became interested and actively participate in good law and order.

It is about time that this step has been taken.

Too long the individual citizen has stayed back—not wanting to get involved—and criticized the police officer for not solving a case without any leads.

It might not be a bad idea here.

### Courthouse Notebook

By Lou Durkin

The new move to abolish the Lake County Health Department is not expected to make much headway even if some brash members of the Lake County Board of Supervisors manage to get the elimination proposal on the ballot in a recall referendum. Many of the people who fought for the establishment of the department will don their armor and march forth in support of it.

The move to eliminate the department is not wholly unexpected, however, because autonomous government departments such as the Health Department sometimes tend to get a little autocratic and too independent, creating friction with the county board which is, after all, the chief administrative body of the county.

Actually the talk about abolishing the department is ground-work to bring the department under closer control of the county board and is a tactic in the maneuver to bring all county health facilities under one control.

The Health Department and the Lake County Tuberculosis Sanatorium were created, by referendum, have their own taxing power, and are controlled primarily by appointed boards.

The Lake County Home and the Lake County General Hospital are supported primarily from

general county tax revenue, fees paid by townships for residents, and state funds with control being vested in county board committees.

Many county board members feel that activities and programs of the health facilities could be better coordinated and substantial savings could be effected if all departments were under a single committee.

The Health Department and the Tuberculosis Sanatorium have been something less than ecstatic at the proposal, insisting that political control would produce all sorts of evils, although the past record of the supervisors in operating the County Home and County Hospital would seem to indicate that this would not be the case.

The Health Department has stepped on many toes by insisting on high standards in sanitation, restaurant inspection and other areas of safeguarding public health and its officials have not always been diplomatic in dealing with the public or the county officials.

The criticisms which might be directed against the department are not severe enough, however, to warrant abolishing the department.

### Your Congressman Reports....

By Cong. Robert McClory

The storm brewing about the United States Supreme Court should be viewed in broad perspective.

The cry of "cronyism at its worst" which followed the provisional appointments of Mr. Justice Abe Fortas as Chief Justice, and the President's friend, Judge Homer Thornberry, as an Associate Justice, is mild when compared to the many tempestuous events of earlier days associated with our Supreme Court.

The 1936 proposal of the late President Franklin D. Roosevelt to "pack" the Supreme Court (by adding two additional justices) evoked a national campaign which dealt him the most stunning legislative defeat in his long political career. The disclosure of Mr. Justice Black's prior Ku Klux Klan membership occupied the headlines for many weeks following his nomination to the Court, and his eventual confirmation by the Senate, in 1937.

Indeed, the charge of "cronyism" seems only slightly more serious than the spasmodic demand to "impeach Earl Warren" or the threat to limit terms of Supreme Court Justices, neither of which has met with much public support.

The United States Congress, however, has expressed its disagreement with the Court by reenactment of the Internal Security Act—designed to bar communists from employment in government and in defense industries. Also, in the recent passage of the Omnibus Crime Bill, the Congress expressed its disagreement with the Miranda and other decisions that have hampered law enforcement of criminal suspects.

It would appear that the Supreme Court Justices "have read the election results"—or at least have become aware of the United States Congress.

To the surprise of many observers, the Court last month upheld the right of a law enforcement officer to "stop and frisk" a criminal suspect. This unexpected decision gives validity to a bill passed by the 75th Illinois General Assembly (S.B. 17), which former Governor Otto Kerner vetoed under the misapprehension that it was "unconstitutional."

At about the same time, the Court astounded many of its critics by upholding the validity of a Federal law providing punishment of those who burn their draft cards.

The Court also surprised many persons by expressing itself against pornography by sustaining the right of a state to outlaw sales to juveniles of certain obscene literature.

While the Supreme Court continues to be regarded as "liberal," there appears to be a new awareness on the part of the "nine old men" of the serious implications of today's disorders—and violent dissent. The so-called "cronies" whom President Johnson has nominated to the Supreme Court are certainly no more nor less "liberal" than Chief Justice Warren. What their attitudes will be in the future—and how their decisions will meet the standards that liberals and conservatives may erect—remains to be seen.

There can be no doubt that the Supreme Court is experiencing a revolution both on and off the bench.

### Letters to the Editor

"AMERICA"

We love America, Land of the free,  
The beautiful trees, mountains and sea.

It's a proud country, worth fighting for,  
Attentions, Citizens, buy U. S. Bonds galore.

We need your help, right now,  
To the enemy we will never bow.  
Let's have freedom, safe and sane,  
Send our boys Home, for all to gain.

Resident of Victoria St.  
Antioch

Just how many people in our town are aware of the Antioch Little League and Babe Ruth Program? Not too many, it seems.

We cannot stress enough, the importance of this program for the children of this town. The town fathers have long recognized this fact and have helped in every way possible. The majority of our merchants have given much—mostly financial aid—which no organization can exist without.

We also have organizations such as the Antioch Jaycees, who have been of great help.

We emphasize the great need for such financial backing for help maintain this Little League program.

The majority of the contributions to this program are given by a group of plain, ordinary citizens who are not merchants or members of any organization. These people come home from work, tired and weary, and go out to the ball field in the evening, many a time without any supper, as the time element to play ball in the evening is limited.

They do the best they can to teach these boys how to play ball and to keep the teams organized. They also have to attend meetings, to make decisions and to determine in what way they can raise funds to meet the expenses that arise throughout the ball season. In this, the wives of most coaches are invaluable. It is the wives who work so hard to put across such functions as the Pancake Breakfast, which is one of the most important fund raising functions we have.

We are very proud of the fact that, all summer long, we can keep these boys in a clean wholesome sport which will prevent them from becoming involved in things boys can get involved in when they have too much idle time.

We have also helped to provide future athletes for our high school by keeping these boys interested in sports which a lot of them would not participate in if we had no program. We know, as most people do, that helping our children is an investment in the future of our community.

### Illinois Faces Water Shortage By Year 2020

(Continued from page one)

be one-third of the water that is needed in the year 2020.

Water also falls to earth in an erratic pattern. Some seasons bring floods, others bring drought. Some areas have enough water, others do not. Some water is soft and sweet, other is "polluted" by minerals provided by nature. As water flows off the land, it takes soil with it and fills the streams and lakes with silt—a process hastened by mismanagement of land and water resources.

People also disrupt the natural water cycle. By drinking water, by using it as a raw material for industry and agriculture, the water resource is "slowled" in its evolutionary process. And, too often the water man, returns to the source or atmosphere as a dangerous threat.

### Health Department...

(Continued from page one)

But he said the reason the firm did not take out a permit to dump was because the health department demanded a fence put around the property.

This, according to Shorts, would have amounted to an expenditure of some \$12,000.

Thomas Pajunas, attorney for the health department, when the matter came up again Tuesday, again agreed that if Short's representations were correct the suit would be withdrawn.

When Shorts appeared in court Tuesday he said the reason he had not been able to get the thing settled was because of the holiday in the middle of the week and the fact that he had been out of town.

### Seek Algie...

He said present estimates show it would probably take from \$5 to \$10 million for the dredging work on the Chain over a period of years.

The study, he said, will also determine what will be done to dispose of the dredgings once they have been removed.

One possibility would be to dump the materials in lowlying areas, providing a landfill and making more land available for use.

Also under study, according to Guillon, is the possibility of building a dam on Nippersink Creek to make a reservoir of water for storage.

In this way it would be possible to release the water during the low flow season on the Fox River when the algae growth is high. The high water would also be a deterrent to algae growth.

is not a closed one—we need help in every field of endeavor—coaching, organizing, working to raise funds, etc. We have several hundred boys and there is room for everyone to help.

We ask you to back our Little League program in every way possible. We cannot let our children down, if we want them to be good citizens and good Americans.

Come out to the ballfields in the evening—either the Little League field or the high school diamond, where the Babe Ruth boys play. See a good ball game, enjoy yourselves. Your time will not be wasted. You will soon realize what this group—the Antioch Little League, is really doing, and you may feel the need the boys, and ourselves have for you.

We would like to extend to the Antioch High School Board, high school principal, Mr. Dittman, and his custodians, our sincere thanks for giving us such a fine field on which to play ball.

## Antioch Talent Galore In Hayloft Jamboree

Friday and Saturday, July 19 and 20 are the big nights to remember. The Hayloft Jamboree will get under way both evenings with two solid hours of well rounded entertainment at 9 p.m. at the Antioch Grade School auditorium.

The show is sponsored by the Antioch United Methodist Church and proceeds will be used to improve the parking lot in the rear of the church. Mrs. Florence Druhl is in charge of the production; decorations and props are under the direction of Bob Koemoud and the Methodist Youth Organization; Mrs. Ruth Duha is in charge of tickets and

they may be purchased in advance at the Methodist Church office or from Mrs. Florence Druhl at Trevor. Tickets can also be purchased at the door on show nights.

There will be 30 acts in all—and one of the highlights of the show will be "The Drifters & the Blue Steel Boys," a top recording country and western band who have made recordings at Nashville, Tenn. They have volunteered their professional talent to help with this benefit.

Many talented Antioch people will take part in the show. A Rock 'n Roll group from Antioch, "The Complete Banks" will fea-

ture Tony Baezynski, Sue Abderhalden, Bill Gan, John Feblen, Mark Rznko, all of Antioch. Randy Irish from Wadsworth will play a piano solo; and Pamela and Paul Allen, also of Antioch will offer a singing duet.

Bill Dow, with his guitar will delight the audience with his fine playing.

Richard and Jane McIntyre will be featured in a song and dance act, and Linda Palinski will entertain with Swiss yodeling.

"The Untouchables," a specialty dance act featuring ten from the Antioch area will be another highlight of the program.

Dance O Rama Studios in Lake Villa are sending some of their talent, and Bill Benson and his "Hot Shots" from Bristol will be on hand to entertain.

## B. J. Hooper School Loses Principal

The Lake Villa School Board accepted the resignation of James Bradley, principal of the B. J. Hooper School, at their board meeting Tuesday night.

Bradley has been principal of the Hooper school for approximately 10 years. He resigned to accept the principalship of one of the Lake Bluff elementary schools. No replacement has been made as yet.

Custodian - bus driver salary schedules were approved by the board. The pay increase will be 15c per hour or roughly \$300 per year. Part-time custodians will be given \$250 per hour. Full time help will be on a 40 hour per week.

The board also approved certain holidays with pay. They are: Veterans' Day; Thanksgiving, Christmas Eve, Christmas Day, New Year's Day, Lincoln's Birthday, Good Friday, Memorial Day, Independence Day and Labor Day.

Custodians and bus drivers after full time employment for one year will receive a two weeks paid vacation. After 15 years, they will get a 35 weeks paid vacation.

The budget hearing date will be at the regular meeting of the board on Sept. 10. The tentative budget will be prepared, discussed, revised and tentatively accepted at the Aug. 13 meeting.

Murphy Miles Co. (Standard) was low bidder on No. 5 fuel oil and their bid of \$.0828 per gallon was accepted by the board. The contract for gasoline for the school busses was awarded to Olson Oil Co. (Mobile). Their bid was \$.136 per gallon.

The milk contract for the year was awarded to Willowdale Dairy. Their bid was \$.0705 for 1/3 quart and \$.064 for 1/2 pints. The milk is purchased on a cooperative basis with the Grayslake schools.

The board also approved the hiring of Mr. Robert Murray of Columbus, Indiana, to teach upper grade math. Murray is a recent graduate of the University of Cincinnati.

## U Of I Gifts Total Over \$7.1 Million

University of Illinois received a total of \$7,122,000 in gifts from private sources during 1966-67, an increase of \$682,000 over comparable funding in 1965-66, according to the 47th annual study of private gifts and bequests conducted by the John Price Jones Company of New York.

The gain by Illinois contrasted to an overall decline among the 50 leading colleges and universities which are included in the study. Overall Illinois ranked twentieth in total funds received. In comparison with other state-controlled universities, Illinois ranked sixth, behind California, Cornell, M.I.T., Minnesota and Texas.

## Legion Auxiliary

By Del Jahneke

The Antioch American Legion and the Auxiliary express their gratitude to a most generous public for their patronage of the annual American Legion and Auxiliary Carnival, from July 1st through July 7th. The proceeds of this Carnival will be used to further the Americanism, Child Welfare, Community Service and Rehabilitation programs of both the Antioch-Legion and the unit.

President Mrs. Bernard Stadick stated that the next regularly scheduled meeting of the Antioch American Legion Auxiliary, No. 728 will be held on July 12, at the Antioch Legion Home, at 8 p.m.

Mrs. Joseph Horton, Illini Girl's State Chairman, will introduce Miss Donna Garrison, this year's Girl Stator. Miss Garrison will give a summary of her activities at Illini Girl's State, held at MacMurray College in Jacksonville, from June 11th through June 16th. She was sponsored by the Antioch American Legion Auxiliary to attend the 28th annual session of Girl's State.

Miss Garrison was one of 550 Illinois high school juniors selected to participate in this year's program, sponsored by the Illinois American Legion Auxiliary. The girls learn all forms of our government, from the city, county, state and national level.

Hostesses will be Mrs. John L. Horan, Sr., chairman; Mrs. Warren Edwards, Mrs. James Caple, Mrs. Herman Rehberg, and Mrs. George Jensen.

The 10th District American Legion Auxiliary returned from the 2nd Division Convention, with many honors to their credit. This Convention was held at the Baker Community House in St. Charles on June 30.

The 10th District Auxiliary was the first in 2nd Division to reach their membership goal of 2,356 members in Lake County. The Antioch Unit, with Mrs. John W. Horan, Jr., as membership chairman, attained their goal last September, and were the second unit in 10th District to be 100% in this program.

Two of the three District Americanism essay contest winners also won first prizes in 2nd Division. These awards were given to Mrs. Ted Odom, Libertyville, District Americanism Chairman; by Mrs. Arnold Chesak, Huntley, Division Americanism Chairman, and will be presented to the winning contestants at the District Auxiliary installation on August 14, at the Gurnee American Legion Home. Antioch Unit is proud to announce that Antioch's winner—Carol Westlund, Class III, and Cheri Dalgaard, Lake Villa, Class I, were first in Division competition. Four thousand, five hundred and thirty-seven essays were entered from 128 schools in the Division.

The District Legislative Chairman, Miss Phyllis Broege, Deerfield, received a prize for the best legislative report, from Mrs. W. J. McNece, Dixon, Division Legislative Chairman.

Mrs. Robert Brooks, Rockford, Division Publicity Chairman, presented a personal gift to Mrs. Edward Jahneke, Antioch, District Publicity Chairman, for having written the most published number of column inches of newspaper publicity; and for the best written publicity exemplifying American Legion Auxiliary programs. Mrs. Jahneke has been appointed 2nd Division Publicity Chairman for 1968-69, by Mrs. James Phelan, the incoming state president.

Another presentation was made to Mrs. Louis Thompson, Waukegan, District Membership Chairman, for having reached "goal" in Junior membership, from Mrs. Lee Powell, Wheaton, Division Chairman.

Mrs. William Franzen, Libertyville, was then installed in office as the 2nd Division President, by Miss Alice Youngs, Lake Forest, Past Division President. Other installing officers were Mrs. William Schultz, North Chicago, Chaplain; and Mrs. John Mould, Wauconda, Installing Sergeant-at-Arms. Other divisions officers are: Vice President, Mrs. Clarence Sandberg, Joliet; Secretary, Mrs. Norman Holt, North Chicago; Treasurer, Mrs. Ruby Jovanovitch, Ottawa; Chaplain, Miss Youngs; Historian, Mrs. Charles Butts, Freeport; Sergeant-at-Arms, Mrs. George Fluger, Vernon Hill; and Parliamentarian, Mrs. Albert Dorn, Mundelein.

Approximately 150 Auxiliary members are nearly 250 Legionnaires were at this convention. The men met at the St. Charles Legion Home, and elected John Mould, Wauconda, as 2nd Division Commander.

By Lillian Birdsall

**Chairman—Jerry Kusch**  
Thirty members were present for the birthday dinner and meeting held for the Loyal Order of Moose on Wednesday evening, June 26 at the Antioch Moose Home. Governor Scotty Birdsall presented Mark Polson, son of past governor Nor Polson, with a gift certificate from all the members in appreciation for his help in the remodeling program. Mark worked right along with his dad who was chairman in charge of the project.

The results of the remodeling program for the Moose Home are much larger quarters, a new club room, carpeted dining area and lounge space, a larger and better equipped kitchen and air conditioned comfort.

Members who have not visited the Moose Home since the remodeling would never recognize it. New tables and chairs have been ordered for the dining area as a contribution from the Hunting Club of the Lodge. Additional folding chairs have also been added to the meeting room as a contribution from the Legionnaires of the Lodge.

The Legionnaires of the Antioch Moose are preparing for the Pancake Day which is set for Saturday, July 20. Serving will start at 7 a.m. and continue till 8 p.m. in the evening. All the pancakes you eat will be featured and donations are \$1.00 per person.

Warren Andre, sponsor of the membership campaign of last year will make presentation awards on Saturday evening, July 13, at the Moose Home, from 8:30 p.m. to 9. All members who have sponsored candidates in this term are asked to be present to receive their gifts.

W.O.T.M. NEWS

**Jo Davis, Chairman**  
E. Jane Meyer, collegian, was in charge of the installation program for the Women of the Moose officers on Saturday evening, June 22 held at the Antioch Moose Home. Past Governor Lester Nelson presided as installation governor and duly installed the new officers in their respective chairs. They are as follows:

Senior Regent, Shirley Gehrls; jr. graduate regent, Jerri Polson; jr. regent, Catherine Kloth; chaplain, Bernie Rosquist; treasurer, Pat Sperling; and continuing officer, recorder Rose Roth. Appointed officers are: guide, Barbara Seelhoff; assistant guide, Camella Kohl; Argus, Rosemarie Hadley; sentinel, Beatrice Phillips; and pianist Gladys Schroeder.

Harvey Gehrls, husband of the senior regent-elect presided as flag bearer. A buffet style dinner was served to the attending members and friends following the ceremony.

**CHRISTIAN SCIENCE CHURCH**  
A communion service will be held this Sunday in Christian Science churches throughout the world.

A First Church of Christ, Scientist, BEACON HILL Rte. 173 & Harden, Antioch, the service will begin at 11 a.m. It is open to the community.

The Lesson-Sermon is titled "Sacrament" and includes the well-known passages from Matthew: "Jesus took bread, and blessed it, and brake it, and gave it to the disciples, and said, Take, eat; this is my body. And he took the cup, and gave thanks, and gave it to them, saying, Drink ye all of it."

Related passages from the Christian Science textbook include this statement: It is possible—yes it is the duty and privilege of every child, man, and woman, to follow in some degree the example of the Master by the demonstration of Truth and Life, of health and holiness. ("Science and Health with Key to the Scriptures" by Mary Baker Eddy).

Following the Lesson-Sermon, the congregation will be invited to kneel in silent communion with God. This will be followed by the repetition of the Lord's Prayer, after which the congregation will sing the Doxology.

members are nearly 250 Legionnaires were at this convention. The men met at the St. Charles Legion Home, and elected John Mould, Wauconda, as 2nd Division Commander.

Games for young and old, and a lot-luck picnic were enjoyed by the Richard Bradys, the James McGills, and the William Poirier families from Gurnee; the Thomas Rizzo family of Lake Zurich, and the Charles Teaters of Waukegan.

## Food Program Extension Is Postponed

The Illinois Department of Public Aid has received notice from the U. S. Department of Agriculture that the extension of the Federal Food Stamp Program to 35 northern Illinois counties scheduled for July 1, 1968 has been postponed.

No starting date was projected pending determination of funding levels for the program for the fiscal year beginning July 1. Postponement of this extension does not affect the Food Stamp Program currently administered in 67 Illinois counties. In these counties food stamp sales will continue as usual.

In anticipation of the extension of the Food Stamp Program on July 1, distribution of federal food commodities has been discontinued, effective the end of June, in the 25 counties which have been offering the program.

"The Department of Public Aid is making every effort to resume commodities distribution in these 25 counties at the earliest possible date," said Director Harold O. Swank. "However, the exact resumption date cannot be estimated at this time."

## Project Vietnam...

(Continued from page one)

As a result of the lack of this list, Harry Brehen, the father of the project, would like those in the area who know the address of a boy in Vietnam to send it to him.

Or call The Antioch News at 395-4111 and we will take the names and turn them over to Brehen.

The post office department personnel recently reiterated their pledge to keep the project going until all of the Antioch area boys are back home.

And we pledge to support the program also and still have available at the Antioch News office the envelopes declaring "We Are Proud of the United States Armed Forces."

Unless the names are supplied by next week, when the mailing

Bruce Price

is supposed to go out, the boys from Antioch High School three their packages.

Typical of those who have been receiving packages is Bruce Price, 21, who enlisted in the SeaBees after his graduation from Antioch High School three years ago.

Price, who was with a construction battalion maintenance unit at the combat base of Dang Ha, is home on a 30 day leave after spending 13 months in Vietnam.

After his furlough he will return to the combat action.

Price pointed out that men from all over were stationed with him and Antioch was the only town to send packages on a regular basis.

"I looked forward to receiving the packages," Price said, "and when they arrived it was like Christmas for me and my buddies."

Price also received The Antioch News and said he enjoyed it because of the local news coverage of the Antioch area.

"Being in Vietnam has been an experience and an education," he said, "and I would like to do it all over again. I sometimes wonder about the people back here, though, and about the college demonstrations."

"For my part, it is necessary to be in this war."

## Illinois State..

(Continued from page one)

Improvements. Thus, a person who uses a state park may not cut, break, injure, destroy, take or remove any tree, shrub, timber, plant or natural object or willfully mutilate, injure, deface or destroy any guidepost, notice, tablet, fence, enclosure or work for protection or ornamentation. The penalty is a fine of from \$25 to \$100 or imprisonment up to three months or both.

Equally strong penalties are applied to anyone who is careless with fire. It is illegal to light any fire except in an authorized place or to carelessly permit any fire which has been lighted to spread or to burn any shrubbery, trees, timber, ornaments or improvements. A person who leaves a camp fire unattended by a competent person is breaking the law—even if the fire causes no damage.

State park attendance figures in 1967 hit a new high of 20 million. The 1968 attendance is expected to go even higher.

## Fall Helicopter Tour Of Lake Co. Planned

A fall helicopter tour of Lake County is being planned by the Lake County Soil and Water Conservation District, according to Russell Gwaltney, of Grayslake, Chairman of the Board of Directors.

The tour will dramatize the importance of land improvement practices such as tree planting, ponds or lakes, seeding of critical areas, etc., in the over-all development of the County. Projects that have utilized soil and engineering information to pro-

## Antioch Man Gels Ticket For Speeding

Paul Lessard of Harden Street, Antioch, was ticketed by the Antioch police for speeding Monday of last week.

Lessard was reportedly speeding on North Avenue and hit a car driven by Alice G. Pierce of Zion, causing some damage to both cars.

Billy J. Wells, of Lake Villa, was ticketed for speeding, and is scheduled to appear at the Circuit Court Branch at Fox Lake on August 7. Wells was charged with driving 35 miles per hour on Ida Avenue.

Samuel G. Crom of Round Lake was given a ticket by Antioch police for failing to yield to a pedestrian on a cross walk. He is scheduled to appear at the Circuit Court Branch at Fox Lake on August 7.

duce a desirable community, examples of good urban land use, and some of the problems caused by improper land use will be observed.

The purpose of the tour is to observe the problems in the future development of Lake County, and to learn methods to avert these problems.

The tour should be of special interest to farmers, real estate developers, county and village officials, and anyone concerned with planning the future growth of the area. By viewing the land from the air, Mr. Gwaltney explained, the importance of each individual tract of land can be seen in its relation to the entire area.

Anyone interested in this tour should make reservations at once by telephoning the District Office at 71 South Old Rand Road, Lake Zurich. The number is 438-8319.

## Country & Western Acts Still Needed For Jamboree

The tryouts for the Hayloft Jamboree showed much talent in the Antioch area.

The Jamboree is being planned for July 19 and 20 at the Antioch Grade School.

Country and western acts, individual or band, are especially needed at this time.

Anyone wishing to participate should contact Mrs. Florence Druel, 414-862-2060.

## Census Bureau To Conduct Survey In Area

A sample of families and households in this area will be included during July in a nationwide survey of home repairs and buying plans, according to Theodore F. Olson, Director of the Census Bureau's regional office in Chicago.

Census Bureau representatives will visit each home chosen for the Quarterly Household Survey, and will inquire about any plans to buy a house, car or major household appliance during the next year. Questions about home repairs and alteration will concern those made during the past three months, or planned for the near future.

The Census Bureau conducts surveys of buying expectations and home repairs every three months, and these surveys are important guides to the growth of the national economy. The Bureau points out that houses, repairs, appliances and cars account for a substantial share of the more than \$500 billion which consumers spend each year. The survey provides both a current measure of the amount of consumer spending on these items and advance information about future trends in spending. The advance information provided by consumers has been very accurate to date. For example, on the basis of surveys late in 1967 and early in 1968 the Census Bureau has forecast 8.9 million

## Cinesphere At Wis. Fair August 9-18

Visitors to the 1968 State Fair of Wisconsin Aug. 9-18, will be standing in line, waiting to take a speeding ride in the pace car at the Indianapolis "500" and a daring sweep down a Colorado ski mountain.

They'll be waiting to get into the Cinesphere Chevy Show, a popular Fair feature for several years.

The Cinesphere offers visitors a 3-D color motion picture spectacular which promises viewers a "you-are-there" effect that will have them gripping their seats.

The 12-minute show is a combination of thrills and humor. In addition to the Indianapolis race and the ski sequences, viewers will be able to "sweep" over the Grand Canyon in a helicopter and "spin" in a carnival ride that is guaranteed to give the heartiest person shaky legs.

An average of three shows an hour is planned.

The Cinesphere itself is a circular, vinyl-coated nylon structure, 75 feet in diameter and 32 feet, 2 inches high. It has no

new car sales for all of 1968. The number of new car sales forecast for the first six months of 1968 was nearly identical to the number actually sold.

Answers given by all families and households in the survey are confidential, and are protected by Federal law.

support except air and visitors leave by special revolving doors along its side.

About 174 people at a time will be able to enter the Cinesphere.

The free show is sponsored by the State Fair and by the Chevrolet Division, General Motors corporation, August 9 through 18.

## Library Gets Ground Rules On Fund Grant

The Antioch Township Library Board held a special meeting Monday evening at 7:30, at which time board members, Mrs. Edmund Vos and Miss Betty Lu Williams, along with Robert Freund, architect, participated in a telephone conference with James Beasley, State Library Consultant.

Beasley explained the federal and state requirements for the use of the federal funds to be obtained by the grant.

He also instructed the board members in the keeping of records and enforcement of labor standards under the federal contract provisions for the Lake County workers involved in the construction of the new building.

The government grant is not given out in one lump sum, but will be paid progressively. The first 25% will be paid when 35% of the building is completed. It is estimated the grant would be in excess of \$50,000.

## Fifth Annual Camp Meeting Crusade

Beginning Sunday, July 14, more than a hundred churches on the northwest side of Chicago, and the surrounding suburban areas, will join together to sponsor the 5th Annual Chicago and Camp Meeting Crusade. The Evangelical Free Church, Route 3, Antioch, Rev. Bernard Fosmark, pastor; Zion Bible Church, 2633 Emmaus Ave., Zion, Rev. Gordon Langley, Pastor, will cooperate in the Crusade.

Scene of the Crusade again this year will be the historic Des Plaines Camp Ground, located on Algonquin Road just east of River Road in Des Plaines.

Speaker for the first week, July 14 through July 20, will be Pastor, Evangelist and Bible teacher, Dr. David D. Allen of Hazel Park, Michigan. From July 21 through July 28, Mr. Tom Skinner of New York City will bring a series of messages of special interest to young people. Mr. Skinner, who is 27 years of age, is a former gang leader from the streets of Harlem. Evangelist Jack Van Impe of Detroit will be the speaker for the final Crusade week, July 29 through August 4. In addition to his preaching, Van Impe, a former night club performer, will be presenting a musical concert each night accompanied by his musician wife, Rexella.

Harry Saulnier, chairman of the Crusade committee, announces that a program of outstanding music will be presented at every meeting.

There will be special rallies for young people each Saturday night and children's meetings each Saturday morning at 10.

As in other years, a unique feature of the Camp Meeting Crusade will be the Saturday morning breakfasts for men and the Thursday noon luncheons for women.

Churches or individuals desiring more information about the Crusade may write to the Crusade Headquarters, 646 South State Street, Chicago, Ill. 60605 or phone 839-4771.

## Monday Holiday Bill O.K.

President Lyndon B. Johnson has signed into law H.R. 15951, a bill sponsored by Congressman Robert McClory (R-Ill.) to provide for the observance of certain national holidays on Mondays.

In a ceremony at the White House, the President presented Congressman McClory with the pen used in signing the bill, and congratulated the Illinois Representative on his legislative efforts.

Also present for the bill signing were Senator George A. Smathers, supporter of the bill in the Senate, and Congressmen Samuel S. Stratton and Peter W. Rodino, co-sponsors of the McClory bill in the House of Representatives. The other Senator sponsor, Senator Everett Dirksen was unable to attend the bill signing.

H.R. 15951 was passed by the House on May 9 and later approved by the Senate on June 24. Hearings on various Monday Holiday proposals were held in August of last year by Subcommittee No. 4 of the House Judiciary Committee, on which Congressman McClory serves as the ranking Republican member. Similar hearings were also held by the corresponding Senate Subcommittee, chaired by Senator Dirksen. The McClory bill provides for the observance of 3 present Federal holidays on Mondays: Washington's Birthday (third Monday in February), Memorial Day (last Monday in May), and Veterans' Day (fourth Monday in October). In addition, the bill provides for a new holiday, Columbus Day, to be observed on the second Monday in October. The effective date of the bill is January 1, 1971, in order to allow state legislatures to adopt the Federal pattern and to allow schools, business, organizations, clubs and other groups to adjust to the new holiday schedule.

Speaking after the White House ceremony, Congressman McClory said: "I believe this to be a significant piece of legislation, responsive to the needs of business, labor, government, and—most of all—the general public. The great popularity of Monday holidays has been more than demonstrated by the thousands of letters Congress has received on this subject, as well as by testimony given before subcommittees of the House and Senate, not to mention several favorable public opinion polls."

"I am hopeful that the states will act soon to adopt the new Federal holiday schedule. I am pleased to note that the States of Massachusetts and Hawaii have already adopted a Monday holiday plan and that similar legislative action is now underway in 9 other states, including my own State of Illinois."

Other officers of the evening will be all associate matrons and associate patrons of Lake County chapters.

Saturday evening the chapter is holding Advance Officers Night. On this evening the line officers each advance one station and perform the work.

In the East will be Marilyn Lorentz, associate matron, and Lawrence Gilo, associate patron; in the West will be Susan Rayman, conductress, and Herbert Pauli, chaplain; and in the South will be Elizabeth Storch, associate conductress.

Other officers of the evening will be all associate matrons and associate patrons of Lake County chapters.

Assistance Decreases In April

During April General Assistance decreased, while the Assistance to the Aged, Blind, or Disabled and Aid to Dependent Children programs increased, Harold O. Swank, director of the Illinois Department of Public Aid, reported today.

Swank said an over-all increase of 1,566 brought the number of persons on the rolls to 489,168 in April, compared to 487,602 in March. The current caseload of 54,641 above the April 1967 total of 434,527.

The April 1968 caseload included 367,554 persons on Assistance to the Aged, Blind, or Disabled and Aid to Dependent Children receiving assistance and eligible for medical care; 52,554 eligible for medical assistance only; and 69,060 on General Assistance.

In March 363,014 persons were receiving assistance and eligible for medical care; 51,622 for Medical Assistance only; 72,906 on General Assistance.

During April of last year 327,477 persons were receiving assistance and eligible for medical services; 46,312 eligible for Medical Assistance only; and 60,738 on General Assistance.

Expenditures for April 1968 were \$35,719,400, compared to \$34,176,838 for March and \$27,039,402 for April 1967. Current expenditures include \$1,608,200—almost entirely for Old Age Assistance—in current and retroactive payments to the Department of Mental Health for persons aged 65 and over eligible for public aid and residing in state hospitals. Also included is \$245,675 in payments for Foster Care-ADC, Foster Care-Other, Aid to the Medically Indigent in Chicago and Cicero, and Burials.

Horan Home From AARP Wisconsin Workshop

John L. Horan of Antioch, President of Antioch Area AARP Chapter, Area V, attended the spring meeting of the Wisconsin American Association of Retired Persons Chapter Officers' workshop held at Madison, Wisconsin. Eighty persons from eleven local AARP Chapters attended the luncheon meeting.

Fred Paason of Zion, AARP Area Vice President and Harold Frame of Racine, Wisconsin, AARP Area Associate Vice President conducted the meeting.

Several speakers stressed the importance of the success of Defensive Driving Training Courses, which are sponsored nationally by AARP and the National Retired Teachers Association.

The non-profit, nonpartisan American Association of Retired Persons and the National Teachers Association were founded to assist retired persons in pursuing lives of purpose and direction. Among their major accomplishments are: a Drug Service by mail, often at substantially reduced prices; Group Health insurance designed especially for older drivers; and Award-winning Publications and a Travel Service geared to the special requirements of older persons.

"Let's Listen to Lifetime Learning" is broadcast to retired persons in all parts of the nation by public service radio from the Associations' Institute of Lifetime Learning.

Bryan Sorenson To Attend Workshop

Bryan Sorenson of 272 Chestnut Street, Antioch will be on Western Illinois University's campus at Macomb July 14-19, as a member of the Youth Conservation workshop.

During the week he will visit a Christmas tree plantation and see a sawmill in operation. He will also tour the western Illinois area to study soil conservation.

The group will study air and water pollution problems, fish management, gun safety, mineral and forestry resources, and game management. A picnic in Glenwood Park and swimming in Western Hall's pool is also planned.

Ill. Guard School Attracts 86 Men

Eighty-six members of the Illinois Army National Guard Officer Candidate School, Class XIII, began the initial phase of a year's instruction on July 6. The instruction will lead to a commission as second lieutenant in the Illinois Army National Guard.

Organized to train officer candidates to fill the guard's present and future junior officer vacancies, the program offers a balanced curricula of fundamental military subjects prescribed by the United States Army Infantry School at Fort Benning, Ga.

Chuck Halling's resort on Grass Lake is a popular fishing place for members of the Chicago Cubs baseball team, who take advantage of every off day to come out to the resort.

Coach Red Smith, Pitcher Emil Kush and wife, left fielder Pennuts Lowry and wife and Bill Gregori were out for bluegill and bass fishing. The Halling children, Eddie, Chuckie, Anita and Margie acted as guides and took them to where the fish were really biting.

Charlie Grimm, Andy Pafco and Eddie Waitkus had to attend an all-star game and couldn't come.

Mr. and Mrs. Alonzo Runyard, who have been living at Bristol, Wis., for the past two years, have purchased a home on Spafford St. and have moved to Antioch.

A contract for the purchase of property on the south side of Lake Street, just west of Victoria St. has been signed by the Illinois Bell Telephone Company.

John M. Littler, telephone manager, said the company plans eventually to erect a new dial telephone office on the site.

Players on the Antioch VFW team included: R. Corrado, B. Dalgard, R. Scott, E. Palenske, B. Schneider, J. Crandall, H. Ellis, G. Fox, R. Wells, A. Bolton, R. Duben, B. Bolton and R. Bushing.

Twelve Antioch residents were in attendance at a hearing of the Illinois Aeronautical Authority today to help determine the suitability of the Tiffany farm for an airport site.

A wedding gift of a white blanket was presented to Miss Virginia Gaa by members of Rainbow for Girls last Monday night. Refreshments were served by Norma Jarnigo, Elsie Farnsworth, Jean Harden and Annette Garner.

Rev. Tuttle and a group of seven intermediate boys from Antioch Methodist Church visited Conference Point at Lake Geneva Wednesday. The boys making the trip were Lauris Burdick, Bill Deering, Harold Wilson, David Petty, Bruce and Fred Stahmer and Bob Willott.

FROM THE ANTIOCH NEWS

TEN YEARS AGO JULY 10, 1958

The first loads of concrete mixed in Antioch by the new plant of the McHenry Ready Mix Co., Inc., were donated to the Village of Antioch for construction of the new sidewalk from Main Street to the Rescue Squad and Fire Department building. A bubbler fountain was placed at the entrance. The evergreen trees have been moved to the rear of the lot and a lawn will be installed.

Mr. and Mrs. Joseph C. Parfitt of Channel Lake Shores subdivision, celebrated their 33rd wedding anniversary July 4.

Rain cut short the number of holes played by the Antioch Lions Club golfers last Wednesday.

Following the dinner, music was furnished by Dr. James Kopriwa, William Brook and Art Smejkal.

Miss Rosalie Morris, daughter of Mr. and Mrs. Edward L. Morris of Antioch, became the bride of Joseph Ronald Peculis in recent ceremonies at St. Peter's Church. The Rev. Alfred Henderson officiated. The bride's attendants were Jo Anne Maydon, Joan Forbrich and Judy Morris.

Richard Hedberg was best man and Max Morris and Larry Lass were ushers.

"Kiss Me Kate" At PM&L July 26

On July 26, 27, 28, August 2, 3, and 4 Palette, Masque and Lyre of Antioch will present Kiss Me Kate. This Cole Porter musical is a real bargain because it is two shows in one.

"Kiss Me Kate", which is directed by Ken Smouse of Antioch, is about a group of actors who are producing a musical version of Shakespeare's comedy concerning marriage problems, "The Taming of the Shrew." But the audience also gets glimpses of the backstage life of the actors who have as many adventures as Shakespeare's characters.

Wes Camp of Antioch plays Fred Graham, the director and star of "The Taming of the Shrew." Barbara Fleischer of Silver Lake is Lilli Vanessi, Fred's ex-wife who is his co-star.

Fred is dating Lois, an actress in the play, played by Marybeth Vaughn of Lake Villa, but she loves Bill, acted by Bob Thomley of Lindenhurst. Into this mixup walk two gangsters, Al Ramsay of Duck Lake and Frank Nolan of Waukegan, who are supposed to collect a few debts or close the show.

After reminiscing with the song "Wonderbar", Fred and Lilli each secretly realize that they are still "So in Love." Their play begins smoothly with "We Open in Venice," but Lilli becomes angry with Fred, and decides to walk out of the show.

Meanwhile Lois is doing well in her part in "The Shrew," but she is having difficulty with Bill as she explains with "Why Can't You Behave" and "Always True to You in My Fashion." Eventually "The Taming of the Shrew" completes its opening night and the actors solve their personal problems.

New Exhibit At Museum

Measures being taken jointly by the Federal Aviation Agency and the air-plane manufacturers to insure the safety of the country's flying craft are shown in the newest exhibit opened at the Museum of Science and Industry in Chicago.

The exhibit, which is located in the Museum's east wing, demonstrates structural tests given to airplanes to make certain that they can measure up to the demands of the highest anticipated loads under take-off, flight and landing conditions. It is shown that by repetitive tests the ability of planes to withstand any stress at any point in flight must be definitely assured before they are declared safe for commercial use.

These tests are designed to disclose possible fatigue weaknesses in the structural make-up of the aircraft, and faults in their electrical wiring, landing gear, electronic systems, cockpit equipment, lifting power of their wings, and the pressurized air installation of their passenger cabins.

Shriners Role Is Important

Marching in parades, serving on one or more of the many committees, chauffeuring the fleet of special white "official" cars and taking part both actively or as spectators, the large percentage of Medinah Temple's 21,000 members who live in this area play important roles in the 9th Shrine Imperial Council session being held in Chicago this week, July 7-12.

It is the largest convention ever held in Chicago, with more than 125,000 Shriners and their families attending and spending more than \$25 million.

Impressive religious ceremonies on Sunday in Medinah Temple opened the convention. An important preliminary was a special initiation on Saturday, July 6, also in Medinah Temple, when a large class of novices crossed the "hot sands" in a ceremony dedicated to Imperial Potentate Thomas F. Seay, head of the 857,000 Shriners in North America and a former Medinah Potentate. Current Potentate William L. Backus will preside.

Another Medinah Past Potentate, Yngvar Brynildsen, is Director-General of the convention, which will be highlighted by two huge parades down Michigan avenue.

Much of the business sessions in the Palmer House are devoted to the 22 Shriners' Hospitals for crippled children and child burn victims.

Music Camp Attracts 100

Two hundred and seven students are attending summer school this year at Antioch Community High School.

Eighteen are enrolled in Safety Education; 42 in Title I Reading and 55 in Driver's Ed., in addition to 152 who are taking 193 semesters of work.

Over 100 young people have already signed up for summer music camp.

The Title I students went to Wrigley Field, by bus, Wednesday to see the Cub play ball. A tour of the Milwaukee Zoo is scheduled for them on July 10.

Schockmel Back At Work After Auto Accident

Grass Lake area residents will be glad to know that Grass Lake School Supt. John P. Schockmel is back on the job again, after spending two days in Condell Memorial Hospital with cuts and bruises suffered in a two-car collision last Sunday morning in Mundelein.

Schockmel's car collided with one driven by Robert Buckley, 10, a Marine from Danville, Pa., at the intersection of Hawley and Lake Streets. Police said that it appeared that Buckley's auto struck Schockmel's car broadside in the center of the intersection. Each driver apparently thought he had the green light.

Schockmel's car, westbound on Hawley, rammed into a fire hydrant after the impact then arced out into the middle of the northbound lanes on Lake Street. Schockmel's car was a total wreck.

Buckley's car, southbound on Lake Street, spun around and came to rest blocking Hawley Street and facing north.

Police said there were no witnesses and no tickets had been issued.

Buckley was given emergency treatment at Condell Hospital and was then transferred to Great Lakes Naval Hospital.

Carsons To Have Store In Waukegan

C. Virgil Martin, president of Carson, Pirie, Scott & Co. disclosed plans for a major store in a huge new shopping center in Waukegan.

The center is expected to be built on 200 acres and contain more than one million square feet of sales space. Among other companies which expect to locate there are Wiewboldts' and J. C. Penney.

The location of the proposed shopping center has not been disclosed, but it is reported to be the southwest corner of Rtes. 120 and 43.

Martin said his store plans to open in late 1970 or early 1971.

Lake Co. Purchases \$802,328 In Bonds

Lake county residents purchased a total of \$802,328 in series E and H United States savings bonds and Freedom Shares in the month of May according to Philip L. Speidel, Lake Forest, general county chairman of the savings bonds committee.

Purchases in the state of Illinois were \$28,072,587 according to Arnold J. Rauen, county director of the savings bonds division of the Department of the Treasury. This is 3.2% below the total for last May, and accounts for 6.2% of national sales which were \$454,000,000. As of the end of May \$51.7 billion was outstanding in Series E and H savings bonds and Freedom Shares. This is an all-time peak.

# Harris Wins Three In A Row At Wilmot

WILMOT, Wis., July 6—Whitey Harris of Lake Villa, driving the Pursnatcher modified stock car, won his third straight feature race in a row at the Kenosha County Speedway, before the largest crowd of the season Saturday night.

Harris, who got his second win here on Wednesday night, July 3 with only three wheels working, got this win with all four wheels turning in super-fast speed. Harris had started 12th in the feature race field and never got in to the lead until the 18th lap but from there on the race was for the win as he stretched out a big lead over second place man, Jim Sullivan of Antioch. Sullivan had taken the lead on the 11th lap from Darv Nissen.

Nissen might have been the winner but was a little too anxious and spun while leading in the third lap. His car was hit by Dr. Dodd and Tom Anderson crashed into Dodd. Of the three, only Nissen was able to continue. On the 11th lap Nissen went out of the race and Ron Bergsma, who had been a problem for Sullivan, went out on the 13th lap. This gave Sullivan a big lead but Harris was third at the time and took second on the 15th lap.

Ten lap heat races were won by Chuck Henne, Al Schill, Dean Kruze, and Bill Bohn. Bill Bohn actually went into the lead twice for his win. The first came when leader Tom Anderson had to stop for a spun out Claude Potter. This brought out the red flag and on the restart, Bohn moved in front a second time.

Chuck Henne came back to win a second time in the semi-feature race over Al Schill, Jim Bozeman, Bob Deldrich, and Jimmy Hedges.

Eddie Loomis, who set fast time for the first time this year, finished only seventh in the feature race. Behind Sullivan in second in the feature was Roger Otto, Ken Hanson, Bill Bohn and Ray Dobbs.

In the late model stock car events, Arnie Hausman of New Berlin, tried hard to make his birthday on Sunday a double celebration by winning the feature race in this class, but although he led up until the last lap, Herb Ahmet of Milwaukee took the lead and the win. Hausman had some consolation in the fact that he had won a previous heat race.

Other heat races were won by Clarence Launderville of Rock-

ford and Mike Jacobs of Milwaukee. Chuck Chadwick had the wind knocked out of him when his car rolled in the fourth heat for the late models. A brief rest put him in much better shape than his badly damaged stocker.

Attendance was another new high for the year at 3421 fans took advantage of a warm night. The total purse money was \$2495.

The Antioch American Legion baseball team bowed to Wauconda on Wednesday, July 3rd, when Rich Stroner lost his first game of the season 4-1.

Antioch scored its only run in the first inning on singles by Nickerson and Comstock and a fielder's choice by Peterson.

Wauconda got three runs in the first and one run in the fourth inning to win the game.

Kampendahl was the winning pitcher.

## Cohos Caught By Steiskal & Johnson

Two Grass Lake area anglers went out recently in search of bigger fish. Bob Steiskal and Wally Johnson of Rt. 1, Antioch, along with "Moose" Duncan of Spring Grove were well rewarded recently when they caught six cohos in Lake Michigan.

The coho salmon were caught 8 to 12 miles off Waukegan in water approximately 130 ft. deep. The fishermen used a 19 ft. flat bottom boat.

The fish were caught during the day by trolling and using silver flat fish lures. They were hooked from depths of 20 to 30 feet. Steiskal remarked: "It's a real challenge to catch a coho—and they are mighty fine eating."

## Jim Cossman Surprises Fans With Sat. Nite Win

Waukegan, July 6—Jim Cossman took the lead with two laps to go at the Waukegan-Speedway Saturday night and won the feature before a large crowd. The ironic part of the story is that Saturday afternoon Cossman desperately needed an engine for his car and he salvaged a stock 283 cubic inch engine out of his wife's hobby stocker of last season.

Running against engines of almost twice the size, Jim's wife's Maude expected her husband to be forced to run in the semi-feature, but to everyone's surprise, Cossman won when Ed Pensack's car overheated with five laps to go. Mike Wolf took second with one lap to go and Al Hagerty took third right at the checkered flag as Jerry Peterson dropped clear to fourth in the mad last scramble.

Al Hagerty won the fast heat coming from his rear end berth to just nip Bob Hopkins right at the finish line in another very

close finish. Dennis Burgan missed qualifying and handily won the semi-feature, also coming from the rear.

Hobby stock action was fast and furious with Bob Klemm back in form as he won two races. The cars of Al Davidson, of Mundelein, Coe Morton, of Zion, and Lark McNally, also of Zion, all flipped in the evening's hobby races.

The demolition derby was another crowd pleaser, as the cars fought it out directly in front of the main stands until only one car could move. Tom Reuter guided a completely demolished Cadillac to a declared tie with Bob Klemm.

Next Saturday night the first powder puff race of the season is scheduled along with a full complement of late model and hobby stock races. The midseason championship races with a 50-lap feature will be contested on Saturday night, July 27.

The 20 lap late model feature race Friday night included the best in area late models and Tim Seyle won out over Jim Cossman and Mike Wolf. Wolf had taken the lead away from

Seyl but Seyl charged back in front and on the final turn Mike's try for the front again failed as he went wide, letting Cossman get the number two spot. Cliff Launderville of Kenosha was slightly shaken up when his car flipped in the semi-feature race but he was OK after a brief rest in the Rescue ambulance. Tom Reusse won the semi-feature for the late models.

## Helpful Tips To Protect Your Boat

Fire destroyed 10 boats on Illinois waterways last year. This is a significant cause of injury among boaters.

To help prevent these tragedies, officials recommend that all compartments should be closed when fueling and the fuel hose nozzle should be grounded to a metal section of the intake line to prevent static electricity sparks. The compartments should be thoroughly ventilated after fueling. Fuel lines and bilges should be kept clean and every boat should carry extra fuel in proper containers.

Last year, 78 boats and 36 motors were reported stolen in Illinois.

The Illinois Department of Conservation urges boat owners to observe these precautions in order to reduce the number of boats and pieces of equipment stolen:

1. Boats should be moored with a steel chain or cable, not with rope.
2. Mooring and docking areas

should be lighted at night.

3. All hatches and ports should be locked when the craft is unattended.

4. A hidden switch should be installed in the ignition system.

5. Fuel line valves should be closed when the boat is unattended.

6. Portable equipment such as radios, electronic gear, fishing tackle, life jackets, etc., should be locked in a compartment if it cannot be taken ashore.

7. All radios, life jackets and other portable gear should carry the owner's name and other identification.

8. A boat owner should keep a record of the make, model and serial number of his motor, radio and other equipment.

9. Losses should be reported immediately to the county conservation officer, the State Police or the county sheriff's office.

If something is lost or stolen, don't give up hope. Last year 56 of the 78 boats reported stolen were recovered.

## Reimer Wins 3rd Feature Saturday

Waukegan, July 7—John Reimer won his third consecutive feature of the season at the Waukegan Speedway Sunday night in the closest feature finish of the year. Junior Dodd took the lead away from Reimer at least three times in the last four laps, but settled for second.

Junior Dodd's and Harold "the Mouse" Wade's fine showing were the best combined efforts of Waukeganite drivers in recent years in the modified ranks. Dodd also won the second heat

while Wade finished third in the third heat.

Bill Bohn was the evening's fastest qualifier, but withdrew from the feature after spinning out early in the race. Claude Potter returned to the track after being taken to the hospital in Thursday's program and promptly won the STP Trophy Dash and finished seventh in the main event.

## McHenry Club Shoot Sunday

By Harry Stern

Members of the McHenry Sportsmen's Club will pay tribute to the club's Lifetime Honorary Members with a special shoot in their honor on Sunday, July 14th.

The day's program will start at 11 a.m. at the trap range, on the west side of Pistakee Bay.

Included in this elite group are Victor Redmond, Woodstock; W. C. Franke, Crystal Lake; Lewis Plitzen and Adrian Armit, both of McHenry.

Shooters are urged to bring their families and picnic in the club's oak grove, and share in the fun. There is no charge for this.

Shotgunners will vie for JoPat tender-aged steaks, chickens and loading components in double, triple and quintuple White Bird Shoots. Hot shots will compete in winner-take-all contests, while not-so-hot-shots will enter the Hi-Lo events, where the high scoring gun and the lowest tallying shooter each wins a prize.

Five pairs of Doubles, Protection and Annie Oakley Shoots will round out the day's program.

A practice session, from 1 to 4 p.m. on Saturday, 13th, will precede the Lifetime Members Honorary Shoot.

Call 395-4111 to place a Society or News Item.

A furlong is 1/4 miles, or 660 feet.

## Lake Co. Football Team Set

The Lake County Rifles football team has practically completed signing of all veterans by the recent additions of linebacker Bob Cook, Don Rowden and Ron Curry. All three veterans have been with the Rifles since 1965.

Bob Cook, Rifle team captain in 1965, played his high school football in downstate Illinois and at Eastern Illinois University in 1959 and 1960.

While in service, Bob played on the powerful Fort Ord team and was named to the All-Sixth Army in 1962. His outstanding play led to a stint with the Oakland Raiders of the American Football League.

Bob also played on the Elmhurst Travelers Championship team in 1963 and for the Joliet Chargers in 1964. In three seasons with the Rifles, Cook has been a starter and missed only two games because of injuries.

Rowden was named the Rifles' most valuable defensive player in 1966 and elected to the Central States Football League defensive All-League team in 1967.

Known for his vicious tackling, Don has been a nemesis to opposing quarterbacks throughout the Central States Football League.

Rowden is from Inglewood, Illinois where he played at Grant High School and also played four years of varsity ball at Northeast Missouri State College.

Curry is no stranger to Rifle fans. Because of his versatility, Ron has played at several positions and has done a fine job at each.

Coach Cichowski, who relies on Curry basically as a running mate to Bill Bodle, has used him as a flanker and as offensive end.

In 1965, Curry was named honorable mention All-League in five different positions, a Central States Football League record. In 1967 Curry played linebacker and did an outstanding job in the championship game against West Allis.

Despite the sizable number of promising rookies on the 1968 Rifle squad, these three veterans do not expect to relinquish their starting roles during the coming season.

Dabiero, the Rifle general manager, commented that "the experience and inspiration that these three players can offer to the rookies on our squad is invaluable. This is vital if we expect to make a strong bid for the 1968 Central States Football League title."

The Rifles were league champions in 1966 and 1967.

## Emergency Vehicles Rules Set

Authorized emergency vehicles, other than police vehicles, are now required to use both audible and visual signals to obtain the right-of-way over other traffic.

Other traffic MUST pull over to the right-hand edge of the highway and stop, if possible.

The driver of an authorized emergency vehicle, when responding to an emergency call or when in pursuit of an actual or suspected violator of the law or when responding to but not upon returning from a fire alarm, may exercise certain privileges subject to certain conditions. He may:

1. Park or stand, irrespective of no-parking laws or laws regarding the movement of traffic.
2. Proceed past a red stop signal or a stop sign, but only after slowing down as much as may be necessary for safe operation.
3. Exceed the maximum speed limits so long as he does not endanger life or property.
4. Disregard regulations governing turning or directions of movement.

The exceptions noted above, except in the case of police vehicles, apply only when the authorized emergency vehicle is using a visual signal and an audible signal (if in motion) according to the requirements of the Uniform Act Regulating Traffic on Highways. These privileges do not relieve the driver of an authorized emergency vehicle from the duty of driving with due regard for safety or the safety of others.

## Donations Asked For Preserve

Lake County citizens are being asked to contribute \$14,500 to help preserve a unique 18-acre prairie on the Highland Park-Deerfield boundary at Berkeley and Ridge Roads.

The Illinois Chapter of The Nature Conservancy recently has reached an agreement with the Lake County Forest Preserve District and the owners of the virgin prairie, whereby the private conservation group will purchase the tract for \$59,500 and sell it to the Forest Preserve District for \$45,000 if the Conservancy can raise the \$14,500 difference in 90 days.

On May 2 officials of the Lake County Forest Preserve District agreed to lay aside \$45,000 after area citizens expressed their interest in having the prairie preserved.

This prompted The Nature Conservancy to negotiate with the owners who are making a charitable contribution to the project to the extent of the excess of the full market value over the sale price.

Dr. Margery C. Carlson, Evanston, Illinois Chapter Secretary and Professor emerita of Botany, Northwestern University, states that virgin prairie once covered two-thirds of Illinois but only small tracts like Berkeley

## Real Fireworks July 4th At Waukegan Speedway

Waukegan, July 4—Johnny Reimer strengthened his championship point lead after winning the 50 lap modified feature at the Waukegan Speedway Thursday night. The race was stopped five times for accidents.

Dave Cermack won his first race at the Speedway as he captured the hobby feature, but the real fireworks came as defending champion and current point leader Jim Couch collided with Tom Reuss, a team-mate, and flipped over hard into the retainer wall directly in front of the grandstands. He was unhurt.

Paul Cameron lead at the end of one lap and then just as Dick Colburn took the lead in the second lap, a spectacular crash occurred right at the finish line.

Apparently one car spun and a chain reaction started which sent Claude Potter on a quick trip to the hospital.

When the cars finally ground to a halt, Ron Bergsma, Tom Anderson and Bill Bohn were hopelessly locked together against the wall and Potter's car was next to them. Someone's bumper bar came right through the door and the smashed metal pinned Potter's right leg. Fortunately it was not broken, just bruised.

Prairie" have miraculously escaped destruction.

Prairie grasses such as turf-foot and Indian grass grow 5 to 10 feet tall on this site and a succession of brilliant prairie flowers bloom throughout the season.

Cyrus Mark, Glenview, Illinois Chapter Chairman, stated that if citizen support is forthcoming this will be the fourth Conservancy project in Lake County.

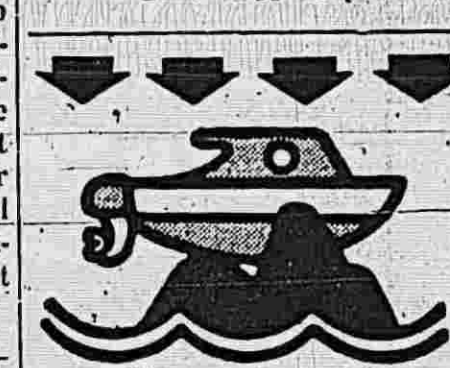

The Chapter, which is a part of the national non-profit conservation organization, has previously acquired the Volo and Waukegan Bogs which were deeded to the University of Illinois and Carpenter Woods which is leased to Lake Forest College. The Illinois Chapter has 14 other preserves throughout the state.

After several more restarts, the event finally started to roll along with Colburn enjoying a comfortable lead while Roger Von Otto and Reimer fought for second spot. Then just as Reimer shot past Colburn, the red flag again came out when Ken Hansen and Darv Nissen spun.

Colburn was in the lead on the restart, but Reimer took the lead in quick fashion and raced on to win by a comfortable margin. Bohn also took second then and Otto finished third.

The final red flag came out with just eight laps remaining when Kukla's racer blew a right rear tire and overturned in the second turn. He scrambled from the up-side-down car uninjured.

Jim Ouellette won the 14 car semi-feature handily. Fourteen cars started and all were running through the white flag, then two cars tangled, stopping the race.

we care

# why should we guarantee other people's products?

If we didn't, we couldn't honestly say WE CARE. Could we?

You see, before any product is allowed on our shelves, we've checked it out pretty carefully.

We've checked the company that makes it.

We've checked to be sure the product is all the package says it is.

If you ever buy anything at A&P you're not happy with, you don't have to bother to write a letter to the company that made it.

Just tell your A&P store manager.

He'll give you your money back.

We'll get in touch with that company for you...and for us.

That's A&P's guarantee. No matter who makes it, if A&P sells it, A&P guarantees it.

Not every store can offer you a guarantee like that. A&P can...and does.

Shouldn't A&P be your store?
